

## Making Choices Trip to Sussex University – Year 8

A group of 40 Y8 students had a fantastic day at Sussex University, gaining an insight into what University life is like. They were absolutely brilliant, asking the University students lots of questions. Here is what some of them had to say about the day.

**Tom:** *Aside from the Krispy Kremes, today gave me and my classmates a descriptive idea of what it would be like to go to university. I met some very nice people and they helped me understand a bit more about university life*

**Archie:** *Today at Sussex Uni I understood how a University works and how much more I would like to go to Uni*

**Anthony:** *I really liked the Uni and if I were to say anything to future students, I would really recommend the University of Sussex and if you go there, ENJOY IT!*

## **Year 12 MediaCom**

Six of our A-Level students from Media and Product Design have the opportunity to work closely with MediaCom, one of the leading agencies in the media industry (named Global Agency Network of the Year at the 2019 M&M Global Awards). On Thursday 7th November our students started the first of their six sessions of work experience and learnt all about the initial processes of production in media. Students got to interact with professionals in the Buying industry and practised their negotiation skills in relation to buying & selling media products and ideas. This is incredibly beneficial for the students and they are looking forward to the following sessions where they will learn about the rest of the production process from a range of industry professionals.

## **Science Club**

Science Club held the first session on Wednesday. Our year 7 and 8s have started their murder mystery with some blood testing and have already eliminated a great many suspects. It was fantastic to see such a huge turnout of excited future scientists! There is still a great deal of forensic work to be done before the murderer can be found including fingerprinting, ink chromatography and flame tests but we reckon our team of forensic scientists are up to the task and ready to take on the challenge!

### **Aim higher trip, Goldsmiths:**

On Friday 8th November Miss Lewis and Mr Black took 28 of our Year 9 Aim Higher students to Goldsmiths university. They learnt about what university life was like and even got to learn and practice circus performing tricks. The boys had an excellent time, and got to experience life in higher education through the eyes of current undergraduate students.

### **Year 9 Reward- Games Period**

45 Year 9 students were invited to the year 9 games period reward on Friday 8<sup>th</sup> November 2019. Students were invited based upon having the highest achievement points in the year group and below 5 behaviour points.

A big well done to all students whom were invited to this reward.
