

A LITTLE TASTE OF UNI CONFERENCE

On Wednesday 4th December 2019, 39 Year 10s were given another opportunity to taste university life participating to Criminology, Drama and History and Politics lectures delivered by Roehampton university postgraduates.

During the psychology session on profiling, CBSC students were able to deduce the criminals' possible addresses and crimes using their own local knowledge of South London and investigative tools developed for the FBI and the UK authorities. They were also confronted to the secret language of signification of representing disability, gender or race by signs or other symbolic means they would not have thought or come across before in Drama. No acting but a lot of deeper thinking... Finally, students had to debate on what was the most important human right namely freedom of speech and the right to vote. It was pleasing to witness the impact of recent Newsday Tuesdays relating to the current political landscape on convincing speakers rebutting with passionate and thought provoking arguments.

A very positive experience by all concerned.

The journey of self-development to Higher Education continues.

Upcoming Aimhigher Dates

Tuesday 10th Dec - Tate Modern - Year 12 NCOP visit

Tuesday 17th Dec - Year 8 Sussex University Making choices - Academic Day 1(group 1 and 2)
(Criminology and Electronics)
